

Botan::TLS_Connection

```
classDiagram
    class Botan_TLS_Connection["Botan::TLS_Connection"]
    class Botan_TLS_Client["Botan::TLS_Client"]
    class Botan_TLS_Server["Botan::TLS_Server"]
    Botan_TLS_Client --|> Botan_TLS_Connection
    Botan_TLS_Server --|> Botan_TLS_Connection
```

The diagram illustrates a class hierarchy where Botan::TLS_Connection is the base class, and Botan::TLS_Client and Botan::TLS_Server are its subclasses. The inheritance is indicated by solid lines with hollow triangular arrowheads pointing from the subclasses to the base class.
